DWA_04.3 Knowledge Check_DWA4

_____

1. Select three rules from the Airbnb Style Guide that you find **useful** and explain why.
Use property value shorthand for objects as it is more descriptive and shorter : `const obj = {`
```
  lukeSkywalker,
};
```
Only quote properties that are invalid identifiers because they are more optimized by javascript
engines : `const good = {`
```
  foo: 3,
  bar: 4,
  'data-blah': 5,
};
```

 use template strings instead of concatenation as it is easier to handle the data : `function sayHi(name) {`
```
  return `How are you, ${name}?`;
}
```

_____

2. Select three rules from the Airbnb Style Guide that you find **confusing** and explain why.
Assign variables where you need them, but place them in a reasonable place.
Why does it say `let` and `const` are block scoped and not function scoped.
